# Partner level is where you can change your financial destiny!!

As a partner you can earn as a platinum member above but there are many more additional benefits:

1. For all the commissions that are paid out under the platinum level and also those that have less than the 4 levels that can earn commission from a sale or recommend, Partners will share in this revenue.
2. For instance, there is a maximum of 50% of the sale that goes to marketers at different levels. Direct recommends get 25%, Level 1 indirect recommends get 12.5%, 2<sup>nd</sup> level gets 7.5% and 3<sup>rd</sup> level gets 5%.
3. If at any of the levels in the hierarchy tree a member is not platinum, they will get the percentage at their level. So, if the recommender at the 1<sup>st</sup> level is a bronze member, then that means only 5% is earned and so another 20% of the sale goes into a pot for partners.
4. This could result in Partners benefitting immensely from these unearned commission and boost their income.

# Pay-out Intervals

- Pay-outs will be made monthly to preferably a PayPal or Stripe account if a member has at least £50 in their account.
- If members do not have at least £50 in their account, they will get their pay-outs every 2 months instead of monthly.
- Members will be responsible for the fee charged by PayPal or Stripe to make the payout which at the time of writing is at most 3% for PayPal and 2% for Stripe. E.g. pay-out of £50 mean PayPal takes £1.50 and £48.50 is paid to your bank account that is set up with PayPal.
- Partners pay-out will be as above for the normal commissions, but the main partner scheme will be paid every 3 months.
- For members without PayPal or Stripe, we will arrange alternative pay-outs that may be more costly to the member.
